EXECUTIVE SUMMARY

- ### Executive Summary: AI & Design Research (August 25, 2026)
- **Figma Expands Agent Capabilities:** Figma has updated its design agent with new skill sets and Model Context Protocol (MCP) support, enabling designers to natively create, share, and remix custom agent workflows directly within the design environment.
- **Enterprise Automation via MCP:** ZINFI Technologies has launched an early-access MCP server, allowing enterprise AI agents to securely query and execute actions across partner onboarding, deal registration, and incentive management systems.
- **Advancements in World Modeling:** Two key research breakthroughs enhance AI simulation accuracy: *ReWorld* introduces long-horizon memory for complex task environments, while new research on physical invariants significantly improves prediction accuracy in world-model rollouts.
- **Specialized AI Workflows:** Wórkiro has launched an AI-powered automation module tailored for accounting firms, featuring automated task routing and AI-generated activity summaries to streamline client jobs and MTD compliance.
- **Self-Improvement & Cognitive Research:** The *Prime Agent* framework provides a new harness for self-improving Reinforcement Learning Models (RLM), while concurrent academic research is investigating the long-term impact of AI assistance on human cognitive development and skill acquisition.

SECTION 1 — NEW AI MODELS

[ReWorld: An Interactive World Model with Long-Horizon Memory] | [2026-08-25] |

[<https://arxiv.org/abs/2608.23565>] | [A new research paper introduces an interactive world model designed to maintain long-horizon memory for complex task environments.]

[Prime Agent: A Self-Improving RLM Harness] | [2026-08-25] | [<https://arxiv.org/abs/2608.23552>] | [Researchers released a technical report on "Prime Agent," a harness framework built for self-improving Reinforcement Learning Models (RLM).]

[How AI Assistance Affects Human Skill Development: A Study of Learning with Logic Puzzles] | [2026-08-25] | [<https://arxiv.org/abs/2608.23543>] | [A new academic paper examines the impact of AI assistance on human cognitive development and learning outcomes using logic puzzles.]

[Correcting a Learned Physical Invariant Improves World-Model Rollouts] | [2026-08-25] | [<https://arxiv.org/abs/2608.23526>] | [This research paper details a method for refining world-model rollouts by correcting learned physical invariants to improve prediction accuracy.]

SECTION 2 — DESIGN-TO-CODE

No new items found

SECTION 3 — AI IN UI/UX DESIGN

[Figma Agent Skills & MCP Support Expansion] | [August 21, 2026] | [https://www.figma.com/community/file/1647513942386018246/config-2026-playground] | [Figma updated its design agent with new skills and Model Context Protocol (MCP) support, allowing users to create, share, and remix agent capabilities directly within the platform.]

SECTION 4 — AI WORKFLOWS & AUTOMATION

[Wórkiro Launches AI-Powered Workflows] | [August 24, 2026] | [https://vertexaisearch.cloud.google.com/grounding-api-redirect/AUZIYQHPORwF_ytkIWW0DJbCg8JWKfW7Z4OBgQgRQhI7M1UtaOjv1Snx1FsruphA1uznPBJNRh1I182hRyUf02zS4V7STZqEM6fQtq-uuY9FbWeJenSI_rExWtVOswaqrVqzxw==] | [Wórkiro introduced an AI-powered module designed for accounting firms to automate client jobs and MTD compliance, featuring automated task routing and AI-generated activity summaries.]

[ZINFI Opens Early Access to MCP Server] | [August 24, 2026] | [https://vertexaisearch.cloud.google.com/grounding-api-redirect/AUZIYQHNUUtgS8fPJ6uo1rWGFFUBEx3yOg3TJzDjongJ03GhUsYO7ZRIDWG8TpJMAEDCn3r3okQ1dSQWHA-YDH-qytNwtB2hCdMMaWAz3-57_Tq-4JpP8KQeA6whcLLglatlwgdmUVOz4V7or_cZBzuqF_-udtLxgrVWKKyY0OZLFeyu7LFwusVm6l5YmfpryeAtzbp2VuviTeet8S2qdWHuCVFa4IPFja1_uC8g==] | [ZINFI Technologies launched an early-access Model Context Protocol (MCP) server that enables enterprise AI agents to query and perform actions on partner onboarding, deal registration, and incentive data.]
