EXECUTIVE SUMMARY

- ### Executive Summary: AI & Design Research (September 6, 2026)
- **Claude Code Expansion:** Anthropic announced a major extensibility layer for Claude Code, enabling third-party plugin support to allow for deeper customization in agentic developer workflows.
- **Boomi's Agent Control Plane:** Boomi launched a new vendor-neutral control plane, providing centralized governance for agents, tools, models, and token expenditures across hybrid and multi-cloud environments.
- **LangSmith Consolidation:** LangGraph Platform has officially rebranded as "LangSmith Deployment," integrating observability, evaluation, and deployment services into a unified ecosystem.
- **Enhanced Enterprise Security:** Box updated its MCP Server with granular administrative controls, specifically allowing IT teams to restrict or permit tool access for unpublished platform applications.
- **Workflow Maintenance:** CrewAI released v1.15.19, addressing legacy platform tool alias discovery and updating documentation to improve reliability in multi-agent orchestration.
